Professional Experience

The Grow Room

E-Commerce Shop - Built on React.js, Firebase, Stripe

- Built UI components in Figma to insure a modern, web application with a great user experience.
- Creating new products, updating existing ones, adding them to the website catalog, and managing inventory levels.
- Created and maintained a website's structure to ensure it is compatible with web browsers, search engines, and other devices such as mobile phones or tablets.

BlockBuster

Movie Details Website - Built on React.js, TMDB Api

- Revamped one of the most historic movie renting companies of the past.
- Developed a modern webpage with TMDB Api, extracting movie details, posters, dates and much more.
- Executed a minimal glassmorphism design to display my UI/UX abilities.

The Music Player

Music Player Website - Built on React.js

- Built a lofi music player to supplement a user's study experience.
- Implemented a variety of external libraries to add a smooth experience when using the site.
